SUMMARY

A full-stack web developer, who is a driven and self-motivated individual with a passion for technology and a desire to make a positive impact through work. Possesses a strong foundation in programming languages and a proven ability to learn and adapt quickly in a fast-paced environment. Focuses on delivering high-quality, reliable solutions, and committed to constantly improving skills and staying up-to-date with the latest technologies. Whether working independently or as part of a team, always strives to contribute to the success of the project and the company.

TECHNICAL SKILLS

Front-end: HTML, CSS, Javascript, JQuery, Bootstrap, React, Responsive Design
Back-end: MySQL, Sequelize, MongoDB, Mongoose, Express, Node, APIs, GraphQL

PROJECTS

Curriculum Corner | **https://github.com/andreahergert/curriculum_corner** | **https://pacific-anchorage-45596.herokuapp.com/**
- This is a group project created in the UW Coding Bootcamp. On the front-end, the app allows a user to access a dashboard with their to-do list for keeping their educational goals. On the back-end, this is a node command line application that allows access to Apollo Server (Graph QL) and MongoDB Compass.
- My responsibilities for this project were the back-end development, functionality, and debugging.
- HTML, CSS, JavaScript, Bootstrap, bcrypt, jsonwebtoken, GraphQL, MERN (MongoDB, Express.js, React, and Node.js)

Tech Blog | **https://github.com/andreahergert/tech_blog** | **https://ancient-citadel-20743.herokuapp.com/**
- This is a tech blog created in the UW Coding Bootcamp. On the front-end, the app can be accessed at Heroku, and on the back-end, this is a node command line application.
- This was created on my own.
- HTML, CSS, Bootstrap, JavaScript, Handlebars, MySQL, Sequelize, Node, Express

Motivation Station | **https://github.com/andreahergert/motivation_station** | **https://secret-springs-16165.herokuapp.com/**
- This is a group project created in the UW Coding Bootcamp. On the front-end, the app can be accessed at Heroku, and on the back-end, this is a node command line application. The Motivation Station is an app where users can keep track of their goals.
- My responsibilities for this project were the project manager, back-end development, and debugging.
- HTML, CSS, Bootstrap, JavaScript, Handlebars, MySQL, Sequelize, Node, Express

WORK EXPERIENCE

Librarian I – Information Services / Cataloging
Jefferson County Library, Port Hadlock, WA (5/2016 - 7/2022)
- Improved the accessibility and organization of library materials by cataloging over 40,000 items in the Polaris Database using copy and original cataloging methods.
- Managed a collection of over 12,000 nonfiction books, all the fiction and nonfiction audiobooks and eAudiobooks, ensuring timely acquisition and removal of materials to keep the collection up-to-date and relevant for library users.

- Designed and implemented over 50 technology classes for library patrons, resulting in an increase in digital literacy skills among attendees.
- Provided personalized reference services to patrons at the Info Desk to determine their information needs and deliver tailored solutions, promoting the use of library resources and technology.

Library Assistant – Cataloging
Whitman College, Walla Walla, WA (6/2014 - 4/2016)
- Improved the accessibility and organization of library materials by cataloging over 13,000 items in the III and Alma Database using copy and original cataloging methods.
- Played an integral role in the supervision and professional development of a team of three student workers, providing guidance and support to ensure the success of both the workers and the library.
- Conducted a comprehensive weeding project of the government documents collection, removing outdated and irrelevant materials and making space for other collections.

Library Assistant
Whitman County Library, Colfax, WA (5/2008 - 5/2014)
- Improved the accessibility and organization of library materials by cataloging over 5,000 items in the Horizen Database using copy and original cataloging methods.
- Managed a collection of over 5,000 popular movies, music, and eBooks, ensuring timely acquisition and removal of materials to keep the collection up-to-date and relevant for library users.
- Designed and implemented over 30 technology classes for library patrons, resulting in an increase in digital literacy skills among attendees.
- Provided personalized reference services to patrons at the reference and circulation desk to determine their information needs and deliver tailored solutions, promoting the use of library resources and technology.

EDUCATION

Coding Bootcamp Certificate of Completion   2/2023
